

Introducing Web-Based Procurement Designed for Electrical Contractors

Materials Database - Our electrician friendly database design is strategically categorized in industry jargon, placing all of your daily material needs at your fingertips.

0	FT	3/4" HEAVYWALL GALV RIGID CONDUIT
0	EA	3/4" HEAVYWALL GALV RIGID COUPLING
0	EA	3/4" HEAVYWALL GALV RIGID HALF COUPLING
0	FT	3/4" IMC CONDUIT
0	FT	3/4" ALUM RIGID CONDUIT
0	EA	3/4" ALUM RIGID COUPLING
0	EA	3/4" H.W. GALV RIGID THREADLESS COMP COUPLING
0	EA	3/4" H.W. GALV RIGID THREADLESS COMP CONNECTOR
0	EA	3/4" H.W. GALV RIGID 3-PIECE COUPLING (UNION)

Custom Materials - Easily create your own custom material groups and sub-groups for projects, vertical markets, building standards and other unique uses.

People & User Permissions - Based on your company's unique procurement process, users can be notified as often as required for all material ordering activity.

Notify when ...

- ... a new order was created
- ... an internal request was submitted
- ... an order was sent
- ... a message was received
- ... a message was sent
- ... an order was changed

Projects - Create projects and allow field users to release from a pre-approved bill of materials, allowing PM's to view a dashboard of materials used compared to materials previously allocated in your bid.

By implementing a **Centralized Order Management tool**, contractors now have the ability to:

- monitor all company orders & eliminate surprise distributor invoices
- order material from any device, at anytime
- instantly view orders for invoicing or job costing
