

Thermal Product Technologies

As the winter months settle in, and temperatures begin to drop, the risk of pipes freezing, and bursting increase exponentially. To help combat this problem, Sunrise Electric Supply has added Chromalox (Heat Trace), and WarmUp (gutter, floor, and slab heat) to our product line offerings.

FROZEN PIPES? No More

Gutter & Roof Installation-
Melts Snow/Ice to Prevent Ice Damming and Water Damage

Slab Heat -
Melts Snow/Ice Eliminating the Need for Harsh Snow Melting Chemicals, and Reduces 'Slip and Fall' Injury Liability.

Heat Trace -
When Frozen Lines are not an Option During the Cold Chicago Winters, Contact Sunrise Electric Supply for the Raychem, Delta-Therm, Chromalox, and Warmup Products to Meet Your Needs.

Proud Partners
